ABOUT ME

Passionate Full Stack Developer & AI Enthusiast with 1.5 years of hands-on experience building scalable web applications. 3rd Year B.Tech CSE student at Sanjivani University with a strong focus on innovative problem-solving, and learning emerging technologies. Skilled in creating efficient, user-friendly digital solutions with real-world applications.

SKILLS

Languages

- English
- Marathi
- Korean

Frontend

- HTML & CSS
- Bootstrap

Backend & Database

- Python
- Java
- MySQL

AI & Advanced

- Machine Learning
- AI Integration
- Blockchain

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering
Sanjivani University | Currently in 3rd Year

CERTIFICATIONS

- IBM Python Certification
- Smart India Hackathon (SIH) Participant - 2025
- Multiple Hackathon Participant (Decodex,Nextwave, TriwiHacthon)
- KurukshetraCertificate & Ideathon Participant

PROJECTS

SMARTCAMP

Health Dashboard

- Privacy-first, on-device health monitoring using webcam data with TensorFlow.js
- Combines multiple signals (heart rate, stress, posture, fatigue) into a unified health score
- Technologies: React.js, TensorFlow.js, WebRTC
- GitHub: github.com/Palak9763/Hackathon

SMARTGUIDE

AI Event Planner

- AI-powered tool automating event management tasks like venue booking and scheduling
- Real-time adaptability with safety checks for mistake prevention
- Technologies: React.js, Node.js, AI/ML, SqlLite
- GitHub: github.com/Sarthak1ad/SmartGuid

STUDEXA

Student Progress Monitor

- Web-based Student Progress Monitoring System that tracks and manages student achievements like hackathons, research, certificates, and patents.
- Automatically calculates MAP points and provides a dashboard to monitor performance efficiently.
- Technologies: Html, Css & js , Python(Dijango), SqlLite
- GitHub: https://github.com/Palak9763/StudExa

OPENMODELICA

Simulation GUI

- PyQt6 desktop application for running OpenModelica compiled simulations
- Browse executables with time parameter control and live output monitoring
- Technologies: Python, PyQt6, OpenModelica, Threading
- GitHub: github.com/Sarthak1ad/Openmodelica
